

Centre may Convene PSB Conclave to Chart Roadmap for Viksit Bharat 2047

Dheeraj Tiwari

New Delhi: The government is likely to convene a conclave for state-run banks later this month to formulate strategy and roadmap to build globally competitive lenders keen to ready the banking system for Viksit Bharat 2047.

The move comes close on the heels of finance minister Nirmala Sitharaman's announcement in her budget speech for FY27 the setting up of a 'High Level Committee on Banking for Viksit Bharat'. The conclave will also look to build a consensus on strengthening customer-centric initiatives across all 12 state-run lenders. Banks will also discuss future strategy initiatives and operational interventions that could help them scale up and expand credit, people familiar with the developments said.

"The idea is to devise a strategy for execution of the key central themes identified during PSB Manthan in September 2025. In addition, the banks will be sharing their best practices and business roadmap for the next five years," said an official requesting anonymity.

Some of the key themes identified in PSB Manthan event included strengthening asset quality, robust governance and resolution framework, and building globally competitive PSBs for Viksit Bharat 2047.

This will also set the base for Ease 9.0 and the new benchmarks that need to be set, including collaborative banking," said a bank executive. The Enhanced Access and Service Excellence (EASE) reforms is a programme of the Department of Financial Services (DFS) to improve PSBs.

In the first half of FY26, PSBs reported a net profit of ₹3,675 crore with gross NPAs declining to a multi-year low of 2.30%. After a review meeting in November 2025, the government advised banks to strengthen risk management, underwriting practices, and operational resilience to sustain profitability in an evolving financial environment.

Earlier this week, financial services secretary M Nagaraju said that India's credit-to-GDP ratio, currently at about 56%, remains among the lowest globally, with 300-350 million adults still outside the formal credit system, and that for a country of India's size and aspirations, there is a need for big banks to take higher risks and finance large projects.

The government has already stated that it aims to have at least 20 PSBs among the world's top 20 by 2047.

Cross-Border Crypto Data Exchange to Start from Apr 2027 under OECD Framework

Anuradha Shukla

New Delhi: India will start sharing and receiving cross-border cryptocurrency transaction data from April 1, 2027, under a global reporting framework, a senior official said, noting that work has commenced on the global information exchange format.

The budget has proposed stiff daily and flat penalties on crypto exchanges and intermediaries that fail to properly report digital asset transactions, as India prepares to join a global system for sharing crypto-related information.

The move aligns India with the Organisation for Economic Co-operation and Development (OECD) led Crypto-Asset Reporting Framework (CARF), a global standard that requires countries to automatically exchange information on crypto transactions between tax authorities, similar to an existing framework for sharing of information banking sector transactions. India is a signatory to the CARF.

"India will start information exchange from April 1, 2027 and we are already working on the detailed sharing format which will be out before April this year," the official told ET.

India has been pushing for coordinated global regulation of cryptocurrencies, arguing that cross-border oversight is critical as a large share of crypto trading by Indian users takes place on offshore platforms.

This also aligns with recommendations of the Financial Action Task Force (FATF), aimed at curbing tax evasion and illicit financial flows. Tougher penalties for crypto exchanges, announced in the budget are aimed at strengthening reporting discipline ahead of India's participation in international frameworks for sharing information on crypto transactions, the official said.

"The objective is to ensure that our reporting systems are robust and fully compliant before India begins exchanging crypto transaction information with other countries," the official said, adding that the government will closely supervise crypto compliance and strictly enforce monitoring.

The Centre will reach out to the crypto exchanges to assist them with any technical issues.

From April 1, 2026, entities that don't submit prescribed crypto transaction statements will face a daily penalty of ₹200, while inaccurate reporting or failure to correct errors will attract a flat penalty of ₹50,000, per the budget documents.

The government had in 2022 introduced a 30% tax on gains and a 1% tax deducted at source from crypto transactions.

Last month, India's Financial Intelligence Unit (FIU) unveiled stringent new Anti-Money Laundering (AML) and Know Your Customer (KYC) protocols for cryptocurrency exchanges, including geographical tracking during the onboarding process.
